Take a visual tour of the Top 6 most powerful features in Astroport's new price and LP charts

August 12, 2022 + Astro News

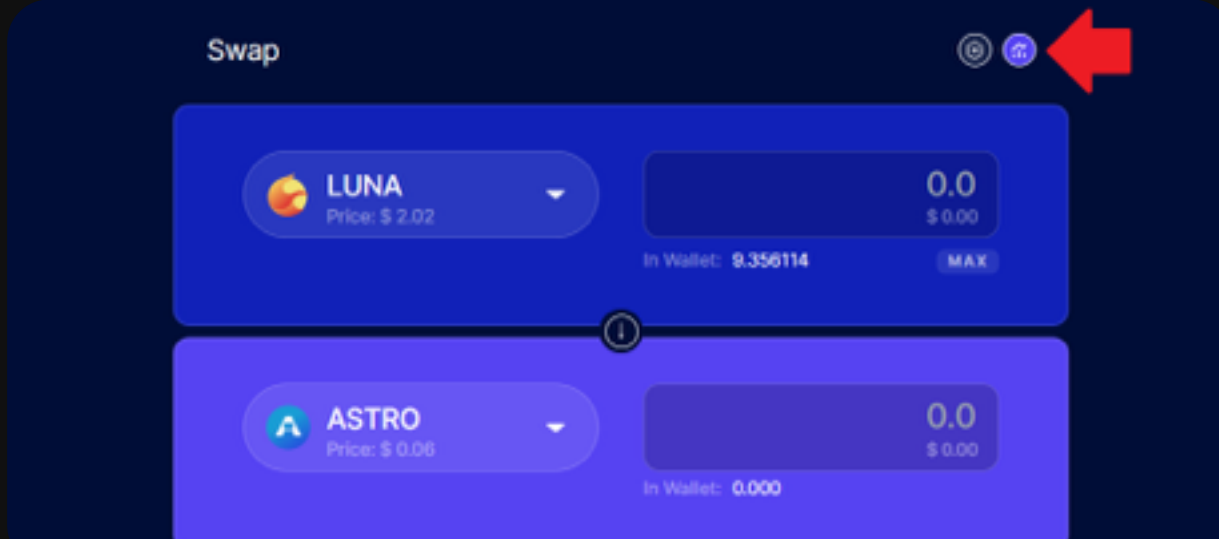

Information = power.

And Astroport's new charts aim to share as much information with traders and LPs as possible. After a recent upgrade, charts were deployed on two pages:

- 1) The swap page: <https://app.astroport.fi/swap>
- 2) The pools page: <https://app.astroport.fi/pools>

You can access the charts on those pages by clicking the chart icon at any time 📌

Here are 6 of the most powerful charts and features on Astroport:

- + No. 1: See how the APR has fluctuated over time for any pool on Astroport 📌

- + No. 2: Check out the growth (or decline) in liquidity for any pool 📌

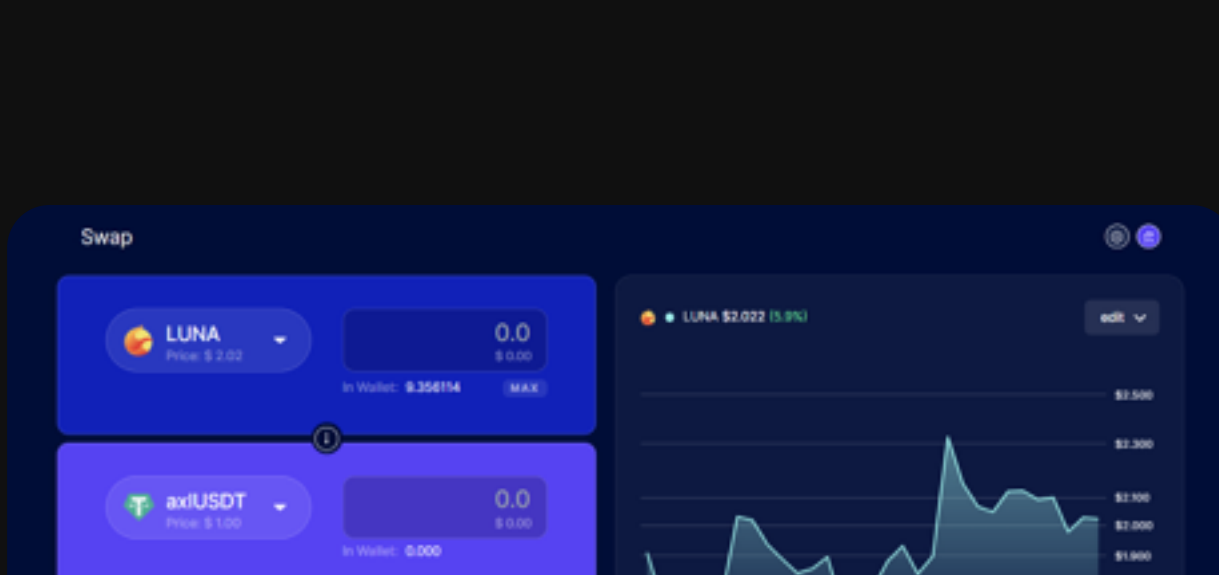

- + No. 3: View trading volume trends for individual pools 📌

- + No. 4: Unsure if you're beating impermanent loss in a pool? There's a chart for that 📌

- + No. 5: On the price charts, toggle between linear and logarithmic views for any token 📌

- + No. 6: Click "edit" and select two tokens to compare their prices over time. \$axiUSDC vs \$axiUSDT 📌
