

Step-by-step guide to participating in Phase 1 of the Astroport lockdrop

December 14, 2021 • Technical

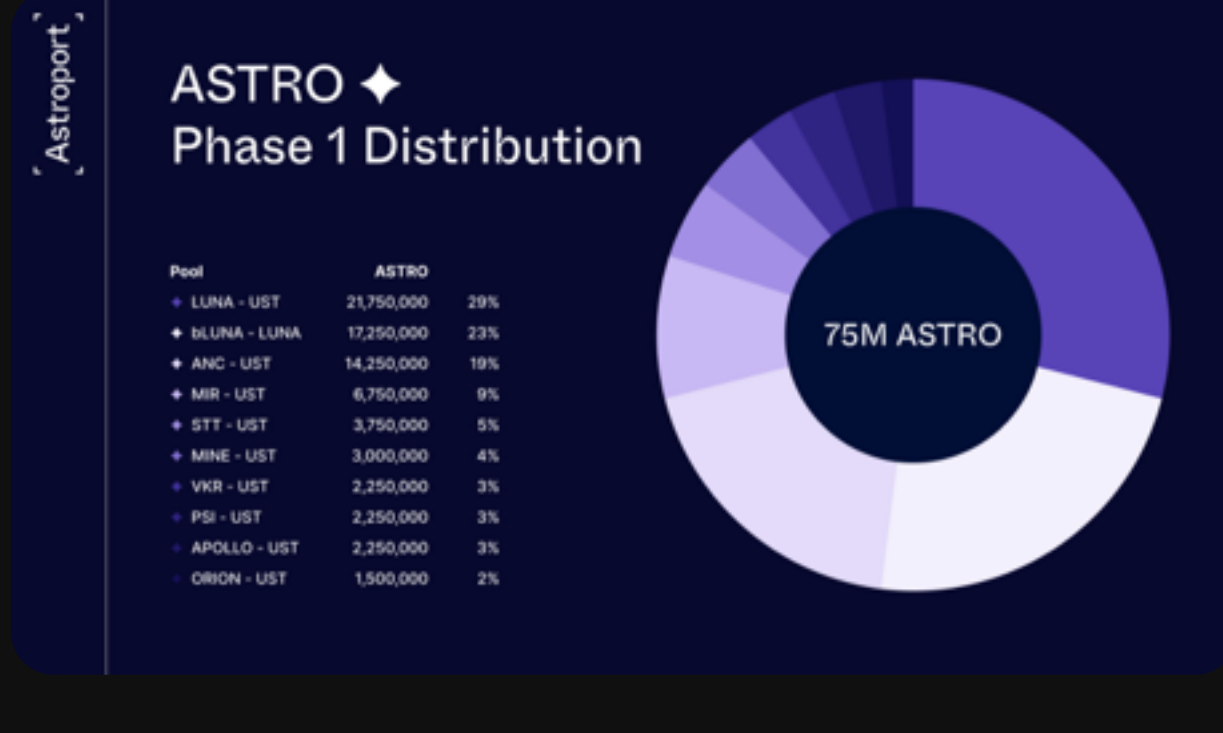

This guide is designed for experienced liquidity providers (LPs) who would like to migrate their liquidity from Terraswap to Astroport during Phase 1 of the protocol's launch.* All Phase 1 participants will receive ASTRO governance tokens when the full Astroport dapp launches on December 28, 2021.

Phase 1 Timeline: December 14–20, 2021

The table below shows all of the pools that are eligible to participate in Phase 1 and the number of ASTRO tokens each pool will receive.

Lock your Terraswap LP tokens in Astroport

Select how much liquidity you want to migrate from Terraswap to Astroport and lock. You can transfer from 1 to 100% of your liquidity.

You can lock different amounts for different periods under the same pool.

Note that you do not have to lock up all of your LP tokens in one batch. For instance, you could provide 2 batches of LP tokens for the ANC-UST pair. One batch could be locked for 26 weeks and a second batch could be locked for 52 weeks.

Step 9: After you've approved the transaction and it's completed, the locked liquidity will appear on the "Active Phase" dashboard in the pod titled "My Locked Astroport Liquidity."

WHA-UST LP	0.00	0.00	21,750,000.00	Provide Liquidity

Step 10: To add more liquidity for that pair or additional pairs, repeat steps 4–8 above.

Step 11: That's it! Your Terraswap LP tokens will continue to accrue trading fees on Terraswap until they are migrated to Astroport just before the dapp's full launch.

All Phase 1 participants will receive ASTRO governance tokens for participating in the lockdrop. These ASTRO tokens can be 'pre-claimed' during Phase 2 and deposited into the ASTRO-UST Liquidity Bootstrapping Pool (learn more about Phase 2 [here](#)). Otherwise, your ASTRO tokens will become claimable and fully transferable with the full launch of the Astroport dapp on December 28, 2021.

Note that if you change your mind about migrating liquidity to Astroport, you can withdraw your LP tokens by clicking "Unlock LP Tokens".

During the first 5 days of Phase 1, you can withdraw 100% of your provided liquidity. The amount available to withdraw on Days 6–7 is reduced and eventually falls to zero when Phase 1 concludes (see the timeline graphic at the top of this article for more details).
